MR. FLAGLER'S GIGANTIC FOLLY

This is the way some of the newspapers of Florida refer to Mr. Flagler's sea-going railroad since the havoc of the recent great storm.

Much of the uncompleted work of this railroad was destroyed. The work will have to be done all over again, and as it was not insured it will be a great loss to its originator and promoter. But this is not the worst part of it—its completion will be delayed.

But if the building of this road was not a foolish thing before the storm, why should it be so now? The completed portions withstood the fury of the hurricane.

The Bible tells us that the houses that are built upon the sands when the rains descend are washed away, and we know that houses whose foundations are built upon rocks are sometimes destroyed by the terrific tornadoes that sweep over our land. Should we, therefore, cease building houses? Trees are sometimes uprooted. Should we not replace them? Crops are frequently destroyed. Should we, therefore, cease farming operations?

When Mr. Flagler began building his railroad and his hotels through what was then termed a wilderness, the same epithet was applied to him. "Flagler's folly" almost became a byword, but it did not long remain so. He has seen that section flourish as a garden, and towns larger than the capital of the state have sprung into existence all along its route.

The "extension" will be completed. Key West will be a great city and this sea-going railroad will become a great artery of traffic and travel.

Instead of a "gigantic folly," it will be referred to as a great achievement.

A NEW ORGANIZATION

About twenty-five of the young business set in Ocala met at the Elks Club rooms Friday night and organized a Chamber of Commerce.

The object of the organization is the upbuilding of Ocala and Marion county, and the meeting was thoroughly enthusiastic on this line. Several very interesting talks urging harmony of action and constant watchfulness of the city's interests was made.

The officers elected for the ensuing year were: President, H. M. Hampton; vice president, C. L. Anderson; secretary, E. E. Robinson; treasurer, R. L. Keating.

After the election of officers the appointment of directors of the two chief departments of the organization was entered into, viz: legislative and executive. These departments are to be conducted for the year by the following:

Legislative—M. J. Roess, G. C. Crom, R. R. Carroll, Marcus Frank and Harvey Clark.

Executive—Dr. J. C. Boozer, Dr. F. E. McClane, F. W. Ditto, Sidney Haile and P. V. Leavengood.

These committees both held meetings Saturday and have gone actively to the work laid out for them by the Chamber of Commerce.

Long live the new organization.

To Ascend Mt. McKinley

Special to the Ocala Banner:

Seattle, Nov. 15.—Dispatches from Fairbanks, Alaska, state that a party of five experienced mountain climbers will start today on an ascent of Mount McKinley, with the object of putting an end to the controversy as to whether Dr. Cook reached the summit. The expedition is composed solely of Alaskans and was financed by people of that territory.

New Line to Florida

Special to the Ocala Banner:

Chicago, Nov. 15.—Beginning today, the Illinois Central will have a new through route for passenger traffic between Chicago and Jacksonville, Fla., the line to be over the Illinois Central to Birmingham, Ala., from there to Albany, Ga., over the Central of Georgia, and from Albany to Jacksonville over the Atlantic Coast Line. The new route will be opened with a fast solid passenger train to be operated daily between Chicago and Jacksonville.

PRINTATORTIAL

She was a typo's darling fair, he was her lover, true. Said he: "You are the 'type' for me; I'll always stick to you. I've had a 'chase,' but now, my own, my 'take's' 'revised,' I guess; and now that love is 'justified,' why let us go to 'press.' The maiden hung her shapely head, and whispered in his ear, while both cheeks were rosy red. 'The form is ready, dear.'"

"I want to make it plain now that in his charge to the jury the court will instruct you that the defendant was the wife of Hodge prior to the ceremonial marriage, just as solemnly as if they had been married by a clergyman." That is the way a Chicago judge laid down the law as to a common law marriage the other day.

How would you like to be Mrs. Kate Walker? She has not been away from her home in fourteen years. She is lighthouse keeper at Robbins' Reef, near New York City. Her husband was keeper for nine years, and died. Mrs. Walker's outlook on all sides is water. There is no land except that which the lighthouse stands on.

An editor wrote a notice of the "belle of the ball," and said: "Her dainty feet were encased in shoes that might have been taken for fairy-boots." The printer thought better of it, though, and changed the meaning entirely by putting it into type thusly: "Her dirty feet were encased in shoes that might have been taken for ferry-boats."—Lake City Index.

With broom corn bringing the farmers \$175 per ton we may expect the "insurgent tariff" organs to again point out the iniquities of the Payne bill.—Enid Events.

Now, this bright fulmination ought to settle the whole tariff controversy. Because the farmers get a big price for broom corn it serves them right in paying a big price for all manufactured articles and implements.

Mrs. C. E. Ball and two children will leave tomorrow night for Washington, where Mrs. Ball will take charge of her parents' residence during the absence of Col. and Mrs. S. M. The DeFuniak Springs Breeze has had an interview with Hon. W. A. Blount of Pensacola, who is a candidate for the United States senate. Editor Storrs finds him a great man—just like a great many others that he has met. He has always, heretofore, he says, looked upon him as a railroad attorney, pure and simple, without any interest in the people except to squeeze them. Now he finds Mr. Blount just the reverse.—Lake City Index.

Both health bills before the legislature were won. One provided for the state ownership of the sanitarium at Narcoosa, and rehabilitating and adding new buildings to the same. The other bill asked that consumption be put among communicable diseases, thus making it possible for money set aside for this purpose to be used in the great anti-tuberculosis fight. The Woman's Clubs did much for these bills and feel that much has been gained.

Ptomaine poisoning, pellagra and hook worms seem to have made their appearance since the "pure food laws" have gone into operation. It does look like the more we try to do the less we succeed. Too much red tape, too much government, too many sumptuary laws.

If I could have my way I should build a couple of warships a year less. Perhaps one would do. I would take that \$5,000,000 or \$6,000,000 and start at least one thousand agricultural schools in the United States at \$5000 a year each, in the shape of model farms.—James J. Hill. And if the editor of this paper could have his way he would have a large part of the millions that is now given to the colleges and universities given for the establishment of country schools and the purchase of appliances, and would give every child a thorough education in the three R's: "Reading, 'Riting and 'Rithmetic."

On November 8th the National Geographic Society appointed the following committee to decide whether or not the north pole was discovered before 1909: J. Howard Gore, George Washington University; Rear Admiral John M. Pillsbury, U. S. navy; Dr. C. Willard Hayes, geographical survey.

This action of the society means it will take the earliest possible steps to pass on Dr. Cook's claim.

The committee will not go to Copenhagen, but will rely on data obtained elsewhere to determine whether Dr. Cook reached the pole April 21, 1908.

ARTICLES OF INCORPORATION AND PROPOSED CHARTER OF OCALA FERTILIZER COMPANY

The undersigned, intending and proposing to organize a corporation under the general laws of Florida, relating to corporations for profit, and the acts of the legislature amendatory thereto, hereby make and publish the following articles of incorporation and proposed charter, viz:

I. The name of the corporation shall be Ocala Fertilizer Company, and its principal place of business shall be at Ocala, in Marion county, Florida, with its branch offices at such other places as the board of directors may from time to time designate.

II. The general nature of the business to be transacted by the corporation is to mix, manufacture, buy and sell commercial fertilizers of all kinds and of all grades; to buy, acquire, own, sell, lease, mortgage, or otherwise deal in lands, buildings, stock, real estate, personal property, and such other property as may be necessary and incident to the general character and conduct of its business.

The corporation will engage in the mixing, manufacture, buying and selling commercial fertilizers, fertilizer materials, chemicals, phosphate rock, guano and such other fertilizers and materials as it may deem profitable.

It will engage in buying, ginning and selling cotton and cotton seed, in the crushing of cotton seed, and the manufacture of cotton seed meal and of cotton seed oil.

It will engage in the general merchandise business. It will engage in a general seed business, to buy and to sell, flower, vegetable and farm seeds of all kinds.

It shall have power to build and construct such stone, brick, masonry, metal and wood works and buildings necessary for the proper conduct of its general business, and to market, sell, ship or otherwise dispose of its products. It shall have power to operate its factory, roads, mills and stores.

III.

The amount of capital stock authorized is the sum of Twenty Thousand Dollars (\$20,000), which will be divided into two hundred shares of the par value of One Hundred Dollars per share. Not less than fifty per cent. of the authorized capital stock shall be subscribed for and paid for in cash before the company shall transact, under its corporate seal, any business. All of the authorized capital stock may be issued and paid for at such times, and on such terms and conditions as the board of directors may designate.

IV.

The term for which the corporation shall exist is ninety-nine years. The officers who shall conduct the business of the corporation will be a president, vice president, a secretary, a treasurer, and a board of directors not exceeding seven in number. All of whom shall be elected by the stockholders at the first regular meeting of the corporation and yearly thereafter. The secretary and treasurer may or may not be one and the same person.

The first regular meeting of the corporation to select permanent officers, shall be held second Tuesday in March, 1910.

The names of the officers who will conduct the business of the corporation until those elected at the first regular meeting are: J. M. Meffert, president; J. K. Christian, vice president; W. D. Carn, secretary; J. H. Taylor, treasurer, and J. M. Meffert, J. K. Christian, W. D. Carn, E. L. Wartmann, F. W. Bishop, J. H. Taylor, directors.

V. The highest amount of indebtedness or liability to which the corporation can at any time subject itself will be Twenty Thousand Dollars (\$20,000).
